

~INTERGROUP MONOPOLY RULES~

Banker:

You are to distribute property and money as follows:

- Player 1 gets normal amount of money plus all of the red properties and 1 orange property
- Player 2 gets half the money and all of the violet properties
- Player 3 gets half the money and gets one railroad of their choice
- Player 4 gets twice the amount of money plus all of the green properties and 1 pink property

Players can take out loans to pay debts (Keep track of amounts lent)

Player 1 (middle class white males):

Play by normal Monopoly rules.

Player 2 (Females):

1. You can only move half the amount you roll (always round down on odd numbers).
2. You can buy property, but for 50% more than the stated price.
3. You can only receive half the amount due from other players, the board, and bank.
4. If you cannot afford to pay fines, other players, or the board, you must take out a loan.

Player 3 (Minorities):

1. You must go directly to jail for rolling a number higher than 7.
2. You can leave jail by rolling a number lower than 7 or paying \$200 fine.
3. You can only buy property priced less than \$100.
4. You must always pay twice the amount to any player, fine, or property (houses and hotels).
5. You can only receive half the amount due from other players, the board, and bank.
6. If you cannot afford to pay fines, other players, or the board, you must go to jail.

Player 4 (The 1%):

1. You are allowed to move twice the amount you roll.
2. You must buy any un-owned property you land on.
3. You receive twice the amount regularly awarded from Monopoly cards.
4. You collect \$350 for passing Go.
5. You can buy property for \$25 less than the stated price.
6. You can buy houses and hotels two for one.
7. You can buy property from other players at any price they are willing to sell.
