

## Back To Scratchin' Game Rules

- Start with 0 dollars in your pocket.
- How to use lottery card: (just draw it and flip it)
- Start the game by rolling a die and whoever rolls the highest number goes first (1-4 players)
- After each turn you take, you will draw a lottery card unless otherwise specified to draw more or less.
- “Normal Day” spaces mean nothing, so you just land on it and draw your card like normal.
- Wager spaces give you the opportunity to wager your money. The person who lands on the space can choose any amount of money up to \$100, and you and your chosen opponent roll a die to see who wins. The highest number wins. (best 2/3)
- Swap space gives you the chance to swap money amounts with any player of your choice if you roll a die and land on 6.
- Once you reach the end of the board, you can only win if you have acquired \$500, otherwise you will return to the beginning of the board and continue.
- One player must choose to be the banker and be in charge of all the money in the bank like monopoly.
